

Fun With Winos (Nine Lives)

When I arrived he was lying on the shoulder of the road on his back. His eyes were open, but he couldn't talk or move. A few minutes later he died before the ambulance got there. The circumstances of the accident were very suspicious at first glance. Abner was wearing a Coca Cola uniform and was apparently walking to work at the bottling company a few yards away from where he died. He never made it to work, because a large Pepsi truck's passenger side mirror hit him in the back of his head and killed him as he walked on the shoulder. Pepsi and Coke are very competitive, but I just couldn't conceive that this was some sort of a soft drink company conspiracy or was it?
