

## Heaven Became Hell ... Hollywood Be Thy Name!

This story is based on 10 years of my life as a Hollywood musician and my secret life as a top shot-caller in the gritty Hollywood underworld. The four of us set out for Hollywood on September 1st, 1987, with dreams of becoming the next Motley Crue. We had the talent and the looks, and vowed to each other to avoid the lure of drugs. Unfortunately, Hollywood had other plans. When the record deal fell through and I was on my last dime, I found myself being dragged into an underground world of corruption. Before long, I was working for organized crime, doing business deals with outlaw motor cycle gangs, staying one step ahead of the FBI, and losing touch with the world I had once known. My guitar cases were now filled with deadly weapons. Love, betrayal, Wicca, crystal meth, and a crippling blast from a sawed-off shot gun would all have roles in bringing me to my knees. Many of the people and events in the story have been the focus of local and national new programs, though I have changed most of the names. This book includes my adventures with dozens of celebrities, from famous musicians to Hollywood actors and known underworld figures. It goes into great depth explaining how methamphetamine made the jump from the biker culture to the Hollywood nightlife and then via the Internet to the rest of the country.
