

Learning to Use Microcomputer Applications (Shelly Cashman Series)

This book uses projects to present and thoroughly explain various problems in a step by step manner. Carefully labelled screens and keystroke sequences illustrate the exact sequence of steps necessary to solve the problems. Using this approach, students are visually guided as they enter various commands and should quickly learn the important concepts and necessary techniques to learn WordPerfect 5.1, Lotus 1-2-3, Release 2.2 and dBase IV version 1.1.
