

Victor Hugo

The life of a writer whose books were such powerful social and political statements that he lived in exile from both France and England. Victor Hugo was the most important writer of the nineteenth century in France: founder and destroyer of the Romantic movement, revolutionary playwright, seminal poet, epic novelist, author of the last universally accessible masterpieces in the European tradition, among them *Les Misérables* and *The Hunchback of Notre Dame*. He was also a radical political thinker (and eventual exile); a gifted painter and architect; a visionary and mystic who conversed with Virgil, Shakespeare, and Jesus Christ--in short, a tantalizing, protean personality who dominated, distracted, and maddened his contemporaries. Attempts to explain Hugos bewildering complexity have generated a literature of memorable paradoxes. If there were a being higher than God, wrote Ford Madox Ford, one would have to say that it was Victor Hugo. Andr Gide, asked who the greatest French poet was, replied, Victor Hugo, alas! And Jean Cocteau famously defined Victor Hugo as a madman who thought he was Victor Hugo. Graham Robb has written a magnificent and magisterial biography that does full justice to the drama of his subjects life. By grasping the giant in his entirety and in his many disguises, Robb rewards us with a panorama of French and European society from the Revolution to the dawn of the twentieth century.
